

IMPEACH NOW!

www.ImpeachBush.org

The illegal war of aggression Bush launched against Iraq has killed hundreds of thousands of Iraqis, and killed or wounded tens of thousands of US soldiers.

(For Iraqi deaths see Johns Hopkins study published in the British medical journal *The Lancet* 10.6.2006.)

He set up a worldwide network of secret prisons, where torture has become the norm.

He gave himself the power to wiretap, open the mail of, search, and indefinitely detain any American.

Each second this president spends in office is harmful to the interests and values of the American people and the Constitution. It is time to take a stand and let the world know that he is not acting with our consent.

Articles of Impeachment drafted by former Attorney General Ramsey Clark, available at www.ImpeachBush.org.
